Dear Mr. Burton,

My name is [REDACTED] and I am a big fan of yours! You have always been my favorite driver! I am very impressed with your work on the track. You could really drive! I am even more impressed with the way you would carry yourself off the track though. I think you did a great job building the whole team up. It was never "just about you" and I never heard you lose your cool, curse, or lose your head. I'm sure you were frustrated at times, but you did a great job of keeping that hidden. You are a terrific role model, and that is why I admire you so much.

I am writing to you in hopes that you could sign these two trading cards for me. I know you are super busy and get thousands of requests, but if you could these cards for me, it would mean a lot.

I want to thank you for being such a great role model both on and off the track. I always admired the way you handled yourself in interviews and you were always the same win or lose. No attitude, no over-boasting...you let the work speak for itself and always make it seem like a team effort. I wish more drivers were like you. Thanks again!

Your fan,

[REDACTED]
